

BROCKVILLE GENERAL HOSPITAL

Our Mission: *To provide an excellent patient experience – guided by the people we serve, delivered by people who care.*

Brockville General Hospital is a fully accredited 141-bed multi-site facility serving a regional population of up to 96,000, providing Acute Care, Complex Continuing Care, Rehabilitation and Palliative Care services. We are situated on the beautiful St. Lawrence River in the heart of the famous Thousand Islands.

An opportunity exists for a **FULL TIME DIAGNOSTIC IMAGING MANAGER.**

Reporting to the Vice President Clinical Services, the Manager of Diagnostic Imaging is responsible for coordinating the diagnostic imaging resources to maximize the effectiveness of patient care and service delivery and to ensure diagnostic imaging meets all regulatory requirements. The Manager of Diagnostic Imaging will ensure members of the technical staff maintain the standards of practice of their individual regulatory colleges or associations and lead the DI team in implementing customer focused services and managing the financial and human resources of the department.

Qualifications:

- Medical Radiation Technologist (Radiology) M.R.T. (R)
- University degree in science, health care or business administration is preferred
- Certified and registered member in good standing with the College of Medical Radiation Technologists of Ontario (CMRTO) is required
- Membership with Canadian Association of Medication Radiation Technologists (CAMRT) is required
- Membership with the Ontario Association of Medical Radiation Technologists (OAMRT) and/or membership with the Ontario Association of Radiology Managers (OARM) is an asset
- Demonstrated comprehensive knowledge of diagnostic imaging - technical proficiency and current knowledge of best practices in diagnostic imaging, normally acquired through a minimum of five years of technical experience in a hospital setting
- Demonstrated leadership and management skills acquired through five years of progressively responsible leadership and supervisory experience preferably in a hospital diagnostic imaging setting
- Demonstrated skills in budget preparation and monitoring and proficiency with use of computers
- Demonstrated verbal and written communication skills necessary to effectively disseminate information across the institution
- Knowledge of Accreditation Canada and Canadian Association of Radiologists standards/ risk management requirements.
- Demonstrated ability to relate in a tactful and sensitive manner to staff, clients and visitors
